

Green Family

Serving in the United Kingdom

December 2021

Dear Friends,

Merry Christmas to each of you! We trust that you are able to enjoy celebrating the birth of our precious Savior with people that you love. Though we are away from family this Christmas, we have been able to spend plenty of time with one another- including a brief weekend in Scotland. It was beautiful driving through the snowy mountains on the way to the Edinburgh Christmas villages. It was some much-needed time away in a stunning location.

Christmas at Church

Christmas is always a busy time for everyone. But for those in ministry, Christmastime brings added busyness and organization. However, it is beautiful to see everything come together.

One such instance was our Family Christmas service. Some of the organization fell apart at the seams... in the middle of the service. Yet, it was just so refreshing that we were able to just go with the flow and watch the children and teens enjoy themselves. They did a brilliant job glorifying our Lord, and the whole church was greatly blessed by their ministry.

It has also been a privilege to have many families and individuals in our home recently. There is something very special about letting people into your life and sharing intimate moments together.

University Ministry

Another very exciting aspect of church ministry at the moment is our university ministry. We started this ministry because many of our teenagers are near university-age. One of our teens is currently attending Keele University just outside of Stoke. She is currently the one organizing this ministry! Last week, we had 15 students in attendance on Saturday afternoon. Three of those students have joined our church at Blurton! Please help us pray that a foundation would be laid for the future university students of the church and that God would allow us to impact this group of students for His glory.

We are very grateful for your support!
May God bless you this Christmas season.

Fellow Helper,

Matt Green
